QUALITY POLICY

Mitutoyo Canada Inc. Calibration Laboratory will provide customers with value. Value is defined by quality, service and cost. Quality is always foremost.

We will provide quality service, documentation and dimensional integrity through the development of our people, and by providing them with the ultimate state-of-the-art equipment. We will continuously improve and commit to comply with the requirements of ISO/IEC 17025.

- **LEADING QUALITY**
- **DIMENSIONAL INTEGRITY**
- **COMPETITIVE PRICE**

ABOUT US

Planned and developed by Mitutoyo Canada Inc., the calibration laboratory is a natural extension of product services to our customers across Canada. This state-of-the-art centre provides a large scope of calibration services on a comprehensive range of measuring equipment.

Located within the Head Office of Mitutoyo Canada Inc., the Calibration Laboratory occupies 1,600 sq. ft. of space. The temperature controlled (20°C ±0.1°C) Class 10,000 Clean Room, is staffed with highly trained calibration technicians.

Mitutoyo's Lab is equipped with a wide range of precision calibration and test equipment utilizing the most modern technology. Visitors are welcome to arrange a tour in advance, by phone, fax or email.

CALIBRATION EQUIPMENT

Only the finest equipment has been selected to perform calibration and testing services. In use at our facility are:

- Caliper Checkers
- i-Checker (for Indicators)
- Micrometer Standards
- Automatic Indicator Tester
- Inside Micrometer Checkers
- CERA Checkmasters
- Grade "A" Granite Plate
- Depth Micrometer Checkers
- CS-5000 Formtracer
- Legex-9106 CMM
- RA-5000AH Extreme Roundness Tester
- GBCD-100A Automated Gauge Block Comparator
- GBCD-250 Long Range Gauge Block Comparator
- Master Optical Flats
- CERA Height Masters
- Mu-Checker & Lever Head

TURN AROUND

Since most products received for calibration require stabilizing within the laboratory environment, we will offer the fastest possible turn around time. Our ultimate goal is one "working" week or better*.

*Subcontracted services may require longer lead times

SCOPE OF SERVICE

The Mitutoyo Calibration Lab provides calibration services on virtually all measuring equipment. Our internal capabilities, coupled with our extensive network of authorized calibration service providers, allow us to offer our customers simple one-time service or full service calibration.

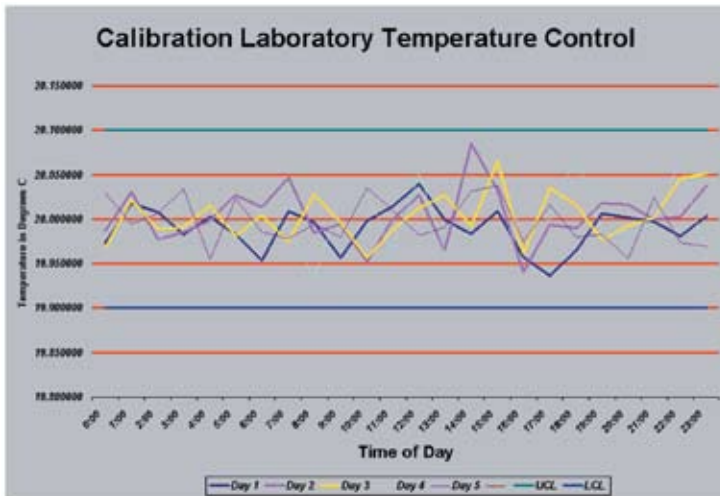

PRICING

We endeavour to maintain competitive pricing on all services provided. In addition, for Laboratory users who maintain their accounts in good standing, we offer a reward program. Visit our website for more details.

ACCREDITATION

Our laboratory provides calibration service on a wide spectrum of products. For those customers who require accredited calibration services, we have an extensive "Scope of Accreditation" as well as a network of authorized sub-contractors who provide accredited services to us.

Computer controlled Lab environment allows for constant temperature monitoring.

LABORATORY SERVICES*

Mitutoyo's Canadian calibration lab provides calibration and verification services on all measuring tools, regardless of the manufacturer. Services offered include:

- Caliper
- Micrometer
- Depth Gauge
- Height Gauge
- Dial Test Indicator
- Bore Gauge, Holtest & Borematic
- Inside Micrometer
- Groove Micrometer
- Micrometer Head
- Gauge Head (for Mu-Checker)
- Depth Micrometer
- Linear Gauge
- Thickness Gauge
- Roughness Test Specimen
- Feeler & Radius Gauge
- Screw Pitch Gauge
- Measuring Tapes/Steel Rules
- Dial & Digital Indicator
- Hardness Testing Instruments

- Protractors
- Squares
- Gauge Block & Accessories
- Optical Flats & Parallels
- Standard & Reading Scales
- Checkmasters
- Cylindrical Squares
- Other - please inquire

*Services not provided by our Lab will be subcontracted to an approved calibration facility

One-time or annual contract services

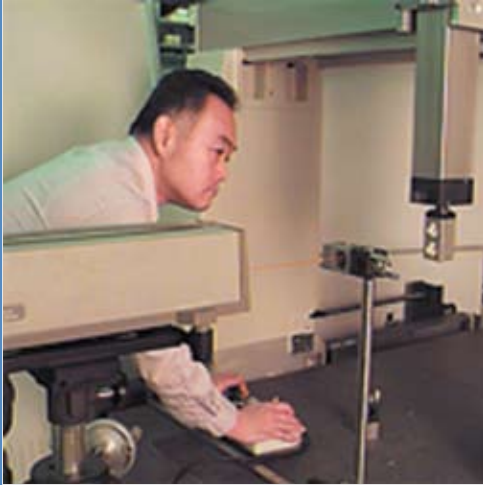

Download Certificate and Scope at www.mitutoyo.ca

WHY CHOOSE MITUTOYO?

Mitutoyo Canada Inc. is the sole representative of Mitutoyo products in Canada. We ***are*** the manufacturer of precision Mitutoyo products. We have been servicing the Canadian manufacturing industry since 1973. When you deal with Mitutoyo Canada, you are dealing directly with the manufacturer.

CONTRACT INSPECTION

Our laboratory can provide contract layout and inspection services on a large variety of customer parts. Our high accuracy CMM, Roundness and Form measuring instruments can be used to provide part inspection reports.

REPAIR SERVICES

Mitutoyo's fully equipped repair facility in Mississauga is staffed with six full time, experienced technicians performing in-house repairs on all Mitutoyo precision measuring tools and digital readout systems. Tools may be forwarded for repair through an authorized Mitutoyo distributor or direct, whichever is most convenient. Repair prices can be viewed or downloaded from our website under In-House Repairs.

Training is offered through our repair shop for companies who run an on-site maintenance department. Trainees learn proper tool maintenance, repairs, parts replacement and accuracy check procedures. Bring your own tools from your tool crib for this unique, hands-on custom training program.

FIELD SERVICES

Mitutoyo Canada Inc. maintains an extensive field service group with six service technicians working from the head office in Mississauga covering Ontario, three technicians in the Montreal office covering Quebec and Eastern Ontario, one technician based in British Columbia, covering Western Canada and one technician based in Nova Scotia covering the Maritimes.

All field service technicians are factory trained professionals performing repairs, maintenance, calibration, installation and training on Mitutoyo coordinate measuring machines and major instruments (i.e. projectors).

Accreditation certificates can be viewed or downloaded from our website.
