

BRING YOUR SHOP UP TO SPEED WITH ZERO REASONS TO WAIT

CRYSTA APEX AS-574

0%

FINANCING
FOR 36 MONTHS

Mitutoyo Canada Inc. understands the financial and business issues manufacturers face, especially in a time of a technology revolution. Manufacturing Technology is becoming smarter and more efficient while the concept of industry 4.0 begins to start all conversations. Mitutoyo is a company that introduces the right solutions; whether you're a start-up or an established company, we have the resources and knowledge to help your business develop and expand.

The CRYSTA-APEX S 574 is available at 0% financing for 36 months, giving your company the ability to buy the precision measurement instrument that will bring your shop floor into the future. Mitutoyo Coordinate Measurement Machines save you time and money while making your measurement process better by producing a larger amount of quality parts. All applications for the 0% financing promotion will be subject to credit review by Mitutoyo Financial Institution.

▪ Fast Credit Decisions

Most transactions are approved between 48 to 72 hours, so you can concentrate on the equipment purchase itself.

▪ Manufacturing Equipment Specialist

Because we exclusively finance precision manufacturing equipment, you'll be working with people who know your business.

The benefits of Coordinate Measurement Machines

ACCURACY

NEED TO MEASURE MORE ACCURATELY?

If your company is looking for a higher accuracy machine to raise the quality of your parts the CRYSTA-Apex S574 CNC Coordinate Measuring Machine, features a high accuracy in the 1.7 μm and guarantees a maximum length error of $E_o, mpe = (1.7+3L/1000\mu\text{m})$.

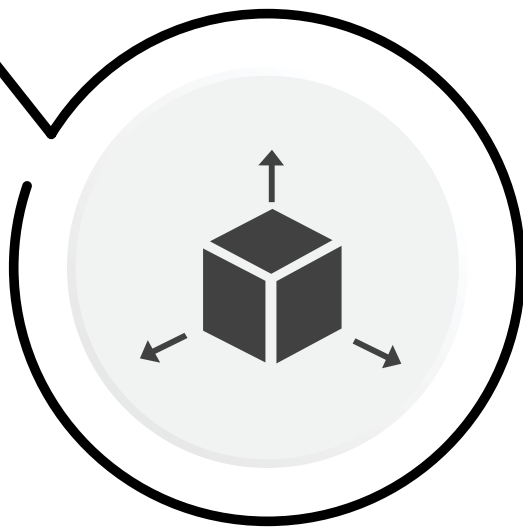

SPEED

IS TIME OF THE ESSENCE?

Are you looking to save time, but not quality? The CRYSTA-Apex Series dramatically reduces measurement time compared to other CNC CMM Machines in the market, which only increases as the number of measuring points increase.

The highspeed drive offers a maximum drive speed of 519 mm/s and a maximum acceleration of 2,309 mm/s². Dramatically reducing measurement time and significantly reducing measurement cost.

CAD

INTERESTED IN MEASURING WITH COMPUTER AIDED DESIGNS?

Mitutoyo's Coordinate Measuring Machines have the ability to work with CAD Software, which can import CAD models, creating a database for manufacturing.

Computer Aided Design Software is used to increase the productivity of the designer and improving communication through documentation. With new technologies arising, the compatibility of CAD and the CRYSTA-Apex S574 will create a more efficient measuring process right at your fingertips.
