CNC CMM TRADE-IN TRADE-UP PROGRAM

LIMITED TIME OFFER

CMM TRADE-IN PROGRAM

Since 1968, Mitutoyo Corporation has been manufacturing coordinate measuring machines (CMMs). The AE100 series manual CMM was the first CMM to be featured in the North American catalog in 1976. Throughout the years, we have built tens of thousands of CMMs to serve a variety of industries around the globe.

Due to the success here in North America, some of our CMMs have been in operation for more than 20 years. We are proud of our high quality and product performance, however, we are equally proud of our continued development and advancements in CMM technology. Based on our dedication to accuracy, reliability, speed and enhanced sensor technology, we believe now is the time to upgrade to take advantage of these benefits.

To help the thousands of operators using Mitutoyo legacy CMMs, we are pleased to offer a Canadian-based trade-in program. When you trade in your old CMM and purchase a new Mitutoyo CNC CMM, you will receive the latest technology, ensuring reliable uptime, lower maintenance costs, improved accuracies, faster machine speeds and the latest digital technologies.

How the program works:

We want to see your old CMM. Contact your local Mitutoyo Canada sales representative or your local Mitutoyo CMM distributor to discuss your new machine needs. Upon evaluation of your needs, we will assess your current machine for trade in. Many considerations go into preparing a trade offer:

- ✓ Machine model and size
- ✓ Current version of Mitutoyo software. Some older software is transferrable. If this applies, we will transfer your license and upgrade you to the latest version of MCOSMOS at no charge—saving thousands of dollars on your new purchase.
- ✓ Your old machine location and the new machine installation location. We will remove and ship your existing machine at no charge as long as it is at the same site.

Points to consider when trading in:

- ✓ Most new CRYSTA series CMMs purchased in 2016 are eligible for extended warranties and cost savings offered through the Mitutoyo Gold Care Program.
- ✓ New sensor technology will improve your measurements and overall throughput.
- ✓ CAD-enabled software greatly reduces programming time.
- ✓ Discuss with your Mitutoyo representative which of your accessories can be used on your new machine.
- ✓ Get a fresh start with all-new machine filters, air dryers, wiring, styli and fixturing.
- ✓ By replacing your current CMM with a new Mitutoyo CMM, you will realize significant overall cost savings.

Are you ready to get started? Contact your local Mitutoyo representative today.

Eligible CNC trade-in models:

- ✓ BN/BHN 300/500/700
- ✓ BN/BHN 1000 series and larger
- ✓ Bright/Bright-Apex 500/700/900/1200
- ✓ CHN 1200/1600/2000
- ✓ KN 800
- ✓ Non-Mitutoyo models will be considered

Extended Warranty

Mitutoyo-built products are among the finest in the industry. With significant uptime and low failure rates, you can have confidence in your capital equipment investment. To reinforce our commitment to our customers, we are offering a total of 24 months parts and labor warranty on selected CMM units.

Two-Year Bronze Calibration Agreement

Mitutoyo service agreements are designed to provide responsive and reliable service. Our service engineers are fully trained in the operation and servicing of Mitutoyo CMM/vision products, so as to provide the very best service to our customers. Field service agreements cover the following: one recalibration/check-up per year for the duration of the agreement; ISO 17025 accredited calibration and certification; and all travel-related expenses are included with this agreement, such as hotel, meals, and local travel (airfare is not included). Field service calibrations include machine cleaning and inspection of all critical mechanics, along with linear, volumetric and repeatability tests.

Lifetime Software Technical Phone Support

If your machine goes down, you need answers fast. Mitutoyo leads the industry with responsive and knowledgeable technical phone support for every Gold Care CMM purchase. Our staff of highly-skilled engineers and technicians possess a wealth of knowledge on all Mitutoyo products and can provide detailed product information, answer your specific technical request and offer many types of application guidance

MeasurLink Real-Time Professional Edition

Designed for customers who want to acquire and analyze data in real-time and use variable inspection to maximize production and minimize defects. It has functions that allow the user to create Parts, Characteristics (with nominal and tolerance) and Traceability lists. The data collection interface provides real-time graphics for Run charts, Control charts, Histograms and Statistics. Standard views include Datasheet (observations and charts), Classic View (chart windows), and 2D view (part images with callouts that include charts and statistical data), along with a customizable Info view and additional Manager views. Full reporting template functionality and Data Export is also provided.

Eco-Fix Kit Fixture Systems

The Mitutoyo Eco-Fix Clamping System brings a new concept in time-saving and lower cost solutions for your modular CMM product workholding setups. This system is comprised of well-marked, color-coded components that are designed to simplify your part measurement requirements. Magnetic or threaded fastening points deliver fast, plug-and-play connectivity. First-time fixturing of jobs can be established and reconfigured in just a matter of minutes for quick turnaround for future part measurement. Or, as needed, a few fixtures can be built and stored to meet your common part measurement requirements.

Starter Stylus Kit

Mitutoyo Starter Stylus Kits enable you to develop probing solutions for applications on your CMM. Mitutoyo ruby-tipped probes offer the combination of performance and versatility for your hardest measurement applications due to overall hardness/low density design and ability to eliminate false triggers caused by CMM movement/vibration.

CMM Line-up

Mitutoyo offers a comprehensive line-up of CMM systems, probing systems and powerful software.

Crysta-Plus M
Manual-Floating Type CMM

Crysta-Apex-S
High-Performance CNC CMM

STRATO-Apex
High-Accuracy CNC CMM
Moving bridge-type

Legex
Ultra High-Accuracy CNC CMM
Fixed-bridge type

MACH Ko-ga-me
Agile Measuring System

MACH-3A
In-line Horizontal Arm CMM

MACH-V
In-line Type CNC CMM
Pre/Post Machining Feedback

CARBstrato/CARBapex
Horizontal Arm
Measuring Systems

FALCIO-Apex
High-Accuracy Large CNC CMM

CMM Model Specifications:

Mode	Measuring Range (X,Y,Z)		Accuracy (Up To)
	Starting From	Up To	
Crysta-Plus M	400x400x300	700x1000x600	(3.0+4.0L/1000)µm
CRYSTA-Apex S	500x400x400	2000x5000x1600	(1.7+3L/1000)µm
STRATO-Apex	700x700x600	1600x3000x1600	(0.7+2.5L/1000)µm
LEGEX	500x700x450	1200x1200x800	(0.28+L/1000)µm
MACH Ko-ga-me	80x80x80	120x120x80	(2.0+5L/1000)µm
MACH-3A	600x500x280	900x1000x600	(2.2+3.5L/1000)µm
MACH-V	600x500x280	900x1000x600	(2.5+3.5L/1000)µm
CARBstrato/CARBapex	4000x1600x2400	8000x3100x3000	15+20L/1000≤70µm (single Y)
FALCIO-Apex	2000x3000x1500	3000x5000x1500	(3.5+4L/1000)µm

Software

MiCAT Planner

Automatic measurement program generation software that uses 3D CAD with Product & Manufacturing Information (PMI) to enable one-click automated generation of measurement programs. With this program, a complex program that previously would have taken five hours to complete manually now can be completed in 15 minutes.

MiCAT Planner toolbar is workflow based

Probes

SurfaceMeasure606T
(non-contact laser probe)

CMM SurfTest Probe
(surface roughness measuring)

QVP
(vision probe)

PH-20
(five axis touch trigger probe)

Financing Available

Mitutoyo Canada Inc., in association with RCAP® Leasing Inc. offers quick and simplified financing for purchasing measuring equipment. Financing is available for equipment purchases direct from Mitutoyo. Most transactions approved in 24 hours or less. Contact your local Mitutoyo Sales Representative for more information.

- ✓ 100% financing (no down payment)
- ✓ Local lease representatives across Canada
- ✓ Fast Service
- ✓ Flexible Terms and Lease options
- ✓ Simple application form

Whatever your challenges are, Mitutoyo supports you from start to finish.

Mitutoyo is not only a manufacturer of top-quality measuring products but one that also offers qualified support for the lifetime of the equipment, backed by comprehensive services that ensure your staff can make the very best use of the investment.

Apart from the basics of calibration and repair, Mitutoyo offers product and metrology training, as well as IT support for the sophisticated software used in modern measuring technology. We can also design, build, test and deliver measuring solutions and even, if deemed cost-effective, take your critical measurement challenges in-house on a sub-contract basis.
