Mitutoyo

The U-Wave fit is a new, compact attachment for Mitutoyo calipers and micrometers that transmits measurements wirelessly to a PC using the digimatic protocol. The elimination of long, cumbersome data cables help improve measurement efficiency and speed while maintaining precise accuracy. The unit's user-friendly interface allows data to be loaded into any software product that accepts keyboard input.

Named for its comfortable, ergonomic design, the U-Wave fit quickly and easily installs for over 1,600 different Mitutoyo calipers and micrometers. The unit's design allows the operator to handle and use the tool with comfort and confidence without sacrificing accuracy.
