Calibrated Tools Program

The Calibrated Tools Program makes **time between purchase and calibration faster** without compromising quality by maintaining an ISO/IEC 17025:2017 Accredited Certificate of Calibration. The Calibration Certificate allows the customer to submit their ‘Date Put into Service’ and determine their own calibration schedule on their calibration certificate.

Digimatic Encoder Technology Caliper	Item Number
	500-171-30DCAL
	500-172-30DCAL
	500-173-30DCAL
	500-193-30DCAL
	500-196-30DCAL
	500-197-30DCAL
<ul style="list-style-type: none">Battery life of approximately 3.5 years has been achieved under normal conditions using Mitutoyo’s ABSOLUTE scale.The data output function allows integration into Statistical Process Control and measurement systems.	

Digimatic Caliper	Item Number
	500-752-20DCAL
	500-753-20DCAL
	500-754-20DCAL
<ul style="list-style-type: none">Battery life of approximately 3.5 years has been achieved under normal conditions using Mitutoyo’s ABSOLUTE scale.The data output function allows integration into Statistical Process Control and measurement systems.	

Dial Caliper	Item Number
	505-743JDCAL
	505-746DCAL
<ul style="list-style-type: none">A battery life of approximately 3.5 years has been achieved under normal use through the adoption of Mitutoyo’s ABSOLUTE scale.Dial design of the Mitutoyo Dial Caliper provides ultra-smooth sliding with shock protectionDial face offers faster measurement readability over the vernier caliperThe data output function allows integration into Statistical Process Control and measurement systems

Roughness Specimen	Item Number
	178-602DCAL
<ul style="list-style-type: none">Works well with Surftest productsUses Ra mean and 5 Ra uniformity values	

Digimatic Indicator	Item Number
	543-783B-10DCAL
<ul style="list-style-type: none">Employing the ABSOLUTE linear encoder, the ID-S always displays the spindle Absolute Position from the origin at power-onUnlimited response speed eliminates overspeed errors	

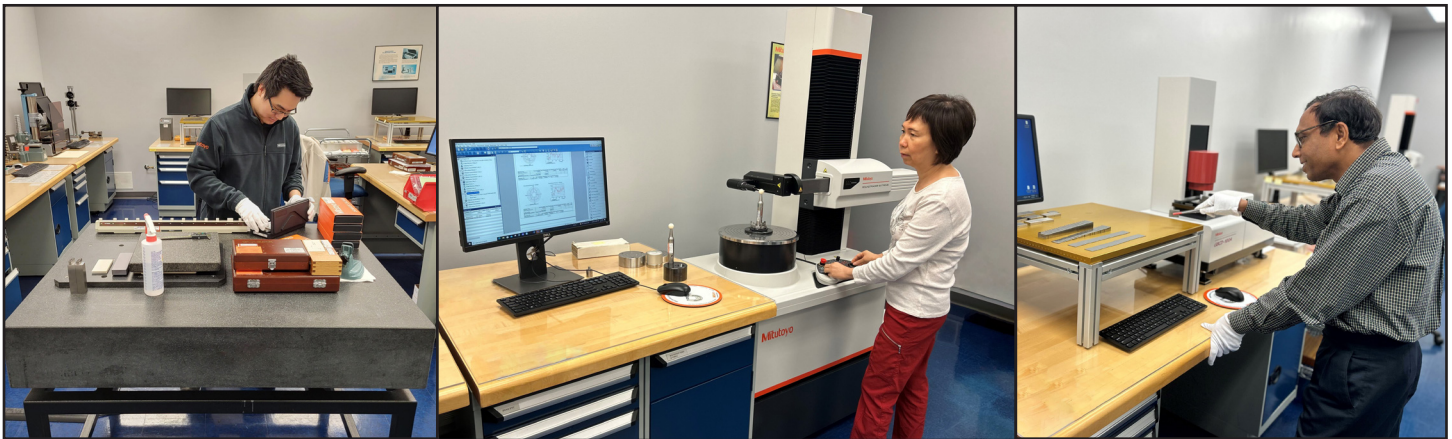

Digimatic Micrometer	Item Number
	293-330-30DCAL
	293-340-30DCAL
<ul style="list-style-type: none">Fully compatible with existing Mitutoyo Digimatic peripherals, SPC output-enabled IP65 modelsFunction-lock system prevents inadvertent setting changes	

Masterball	Item Number
	06ABM944DCAL
<ul style="list-style-type: none">This Masterball is the most common sizeEnsures maximum confidence in your CMM measurements	

Learn More About Calibration

Save Time and Money!
Calibrated Tools Program

Combining state-of-the-art measuring equipment with a precision temperature-controlled environment, our Calibration Lab offers the most accurate and trusted calibration services in Canada. The Mitutoyo Calibration Lab specializes in the most critical measurement standards, including gauge blocks, step gauges, ring and plug gauges, line scales, and more. The lab also calibrates small measuring tools, including micrometers, indicators, calipers, and height gauges.

Equipped with some of the highest accuracy CMMs, vision, and form measuring equipment available, the Mitutoyo Calibration Lab also offers accredited calibrated services for non-Mitutoyo measuring tools and standards as well as for custom-built gauges. Mitutoyo has the people, equipment, and environment to handle your toughest measurement challenges.

For more information email the calibration lab at calibration@mitutoyo.ca
