QM-Height with Pneumatic Float

Size	Order No.	Promo
14"	64PKA129C	\$5,538.94
24"	64PKA130C	\$6,156.21

Mitutoyo's newly redesigned QM-Height Gauge gives you a high-performance and user-friendly measurement experience. With the ability to connect to our U-Wave Wireless Software, the QM-Height can have data collected and sent straight to your PC with a simple press of a button. This precision height gauge gives you the option to have a built-in pneumatic flotation system which enables smoother movement over a surface plate, a battery life of 1200 hours in continuous use and an easy-to-use LED control panel and Best-in-class accuracy $\pm(2.4+2.1L/600)$ μm .

The QM Height Gauge measures height, height difference (step), inside/outside width, inside/outside diameters, circle pitch, free-form surface maximum/minimum heights and height difference by scanning measurement.

Styli Kit M3

Order No.	Promo
K650986	\$562.50

I-Checker Package

Item	Order No.	Promo
I-Checker	170-403	\$18,302.40
I-PAK V2.3 Software	02NJA004D	
Power Cord 120V AC Series - 810	02ZAA010	

Inspect your indicators with Mitutoyo's I-Checker Instrument for efficient in-house calibration. The I-Checker can be used on various indicators such as Dial, digimatic and dial test. Also used for calibration of Bore gauges. *PC required and can be purchased separately.

Mitutoyo's I-Checker achieves the highest accuracy in its class and can guarantee ultra-reliable inspection results. This instrument can be connected to your laptop using a USB cable and has a control box for ease of operation.

Laser Scan Micrometer & Accessories

Description	Order No.	Price
LSM-9506, .02-2.36" / .5-60mm, Bench Top Type, Non-Contact	544-116-1A	\$11,028.54
LSM-902/6900, .004-1.0" / .1-25mm, High Accuracy	544-499-1A	\$15,049.47
*Laser Scan Accessory Calibration Gauge Set	02AGD170	\$930.74

*Optional Accessory

Our Laser Scan Micrometers offer high accuracy, and non-contact measuring for various measurement applications. The LSM-500 model can measure Ultra-Fine Wires from 0.005mm dia and the LSM-512 can measure Cylinders up to 120mm dia. The ultra-high scanning speed of 1600 scans/second is ideal for taking measurements on high-speed production lines or where workpieces are fragile or have a high temperature. Besides measuring the outer diameter of wires and cylinders, the interval of IC chip leads, and the gap between rollers, the versatile Laser Scan Micrometer can be used as a dual system to measure the X and Y axis of electric cables and fibers or stacked to measure the outer diameter of large-sized rollers. Mitutoyo offers LSM Quick Tool Software. An easy, convenient way to set up test parameters and collect data for statistical results.
